

BUTTERFLY VALVES

VF

APPLICATIONS

The VF series of butterfly valves are designed for use in LPW (low pressure water) heating and air conditioning systems.

TYPE	DN	KVS m³/h	DIFF. PRESSURE bar	ACTUATOR 24 Nm. - 32 Nm.	WATER TEMP. °C
VF32	32	40	10	DAL.../ DML24	-15...+90
VF40	40	50	10	DAL.../ DML24	-15...+90
VF50	50	99	8	DAL.../ DML24	-15...+90
VF65	65	170	6	DAL.../ DML24	-15...+90
VF80	80	261	6	DAG.../ DMG24	-15...+90
Accessory	KIT-VF32/80 - assembly kit for butterfly valves VF				

Note: the valves are supplied with assembly kit model KIT-VF32/80

TECHNICAL DATA

Nominal pressure: PN16
Body: Cast-iron
Seat: EPDM
Shaft: Stainless steel (AISI - 416)
Disc: Nickel iron (GGG40)

CHARACTERISTICS

- Low weight and dimensions
- Easy disassembly and assembly
- Low cost of maintenance
- Low pressure drop
- Easy operation
- Automatic regulating
- Perfect sealing

OVERALL DIMENSIONS (mm)
